WORK EXPERIENCE

Product Designer | Mayweb Technologies
January 2023 – September 2023

Duties
- Led the crafting of innovative digital experiences, blending creativity and functionality.
- Orchestrated collaborative excellence within a talented team, driving the development of cutting-edge products.
- Aligned design strategies with business objectives in close collaboration with stakeholders.
- Ensured quality standards and brand consistency in all design deliverables.
- Established and maintained a design system, including style guides, color composition, and icons.
- Prioritized user-centric design approaches while incorporating business objectives.

Product Design Intern | Univelcity
April 2022 – December 2022

Duties
- Contributed to the design process by conceptualizing, refining user-centered design solutions, and delivering user-friendly products.
- Conducted user research, including interviews and surveys, to gather insights informing design decisions.
- Participated in design reviews, providing feedback and suggestions to enhance design concepts.

- Created interactive prototypes using Figma, showcasing user flows and key interactions.
- Assisted in creating wireframes, mockups, and prototypes to visualize user interfaces and interactions.

PERSONAL PROJECTS

- **Intervyou** – Designed a platform to empower tech talents in honing their interview skills, featuring realistic interview simulations and personalized feedback.

- **GreedyPig** – Collaborated with a developer to design a captivating dice game, translating conceptual ideas into visually engaging game interfaces with seamless user experiences.
